

# Safety for Operational Supervisors SCC (VOL-VCA) e-learning + exam

## Safety for Operational Supervisors SCC (VOL-VCA) e-learning + exam

This online course will help you pass the official Safety for Operational Supervisors (VOL-VCA) exam. SCC stands for Safety, Health and Environment Checklist Contractors. Both e-learning and exam will be in English.

In this online course you will learn all about SCC (VCA), safety legislations, hazardous substances, risk reduction, ergonomics, personal protective equipment and emergency situations. You can start the online course today on your PC, tablet and/or laptop.

Please note that you can choose the moment of your exam as indicated in the list of dates and locations below. The date and location of your choice, will be the time and place you will be taking the exam.

### Target audience

You are a supervisor and you need to have a valid Safety for Operational Supervisors SCC (VOL-VCA) diploma. This course is meant for people who need to acquire a Safety for Operational Supervisors SCC diploma, and also for people whose Safety for Operational Supervisors SCC diploma will expire soon.

### Purpose

This course prepares you for the official Safety for Operational Supervisors SCC (VOL-VCA) exam. The course covers all subjects that can be included in the exam and gives you many practice questions to prepare for the exam. During the online course you will learn how to work safely, how to minimize risks at your workplace and how to motivate employees to work safely.

### Preparation

You can start the online course without any preparation. The course will take about 6 to 8 hours to complete.

### Prior education

No prior education necessary.

### Online learning environment

Our online course is up to date with the most recent information about legislations and knowledge of safety. All learning materials are available at the NCOI Veiligheid Academy.

### Diploma

When you sign up, you can choose your time and place for the exam. Your registration will be forwarded to PBNA (certification body) automatically.

You will attend the exam at one of the 33 test centers in the Netherlands. When you pass the exam, you will receive the official Safety for Operational Supervisors SCC (VOL-VCA) diploma from PBNA. Your diploma is valid for 10 years.

### Costs

€ 159,- (excl. VAT)
